Jeremiah Wodke

Web Developer && Graphic Designer

(970) 391-2132 - jwodke@outlook.com

Experienced Web Developer with a demonstrated history of working with various technologies and platforms. Skilled in PHP, JavaScript, and modern frontend technologies. Experience building custom PHP applications, WordPress, WooCommerce, Shopify, BigCommerce and Web Project Management. My dream job consists of working with a small group of artisans who believe in beautiful code, ridiculous humor and that their software can help make our world a better place.

EXPERIENCE

MadWire Media, Fort Collins, CO — Custom *Web Developer*

May 1st, 2013 - Present

In my custom web developer position I create custom themes for Wordpress / WooCommerce, Shopify, and BigCommerce. I've also created custom PHP applications utilizing MVC and OOP paradigms.

Peak Studios, Remote/Boulder, CO — *Director of SEO*

Jan 1st, 2013 - July 15th 2016

I ran a small team whose tasks were to methodically analyze and increase the paid and organic SEO for numerous corporate franchises. Corporations include; Chem-Dry and N-Hance Revolutionary Wood Renewal. Being that Peak Studios is a small consultancy I had to fill a lot of positions to meet the demands of our clients. I truly enjoyed working with our clients and watching our marketing strategy help their businesses grow.

Peak Studios, Remote/Boulder, CO — Web Developer

July 15th, 2015 - July 15th 2016

Assisting in the creation and/or maintainability of Wordpress templates for companies including but not limited to Chem-Dry, Marco's Pizza, Brand Journalists, N-Hance Wood Renewal and more.
